What is Geology?

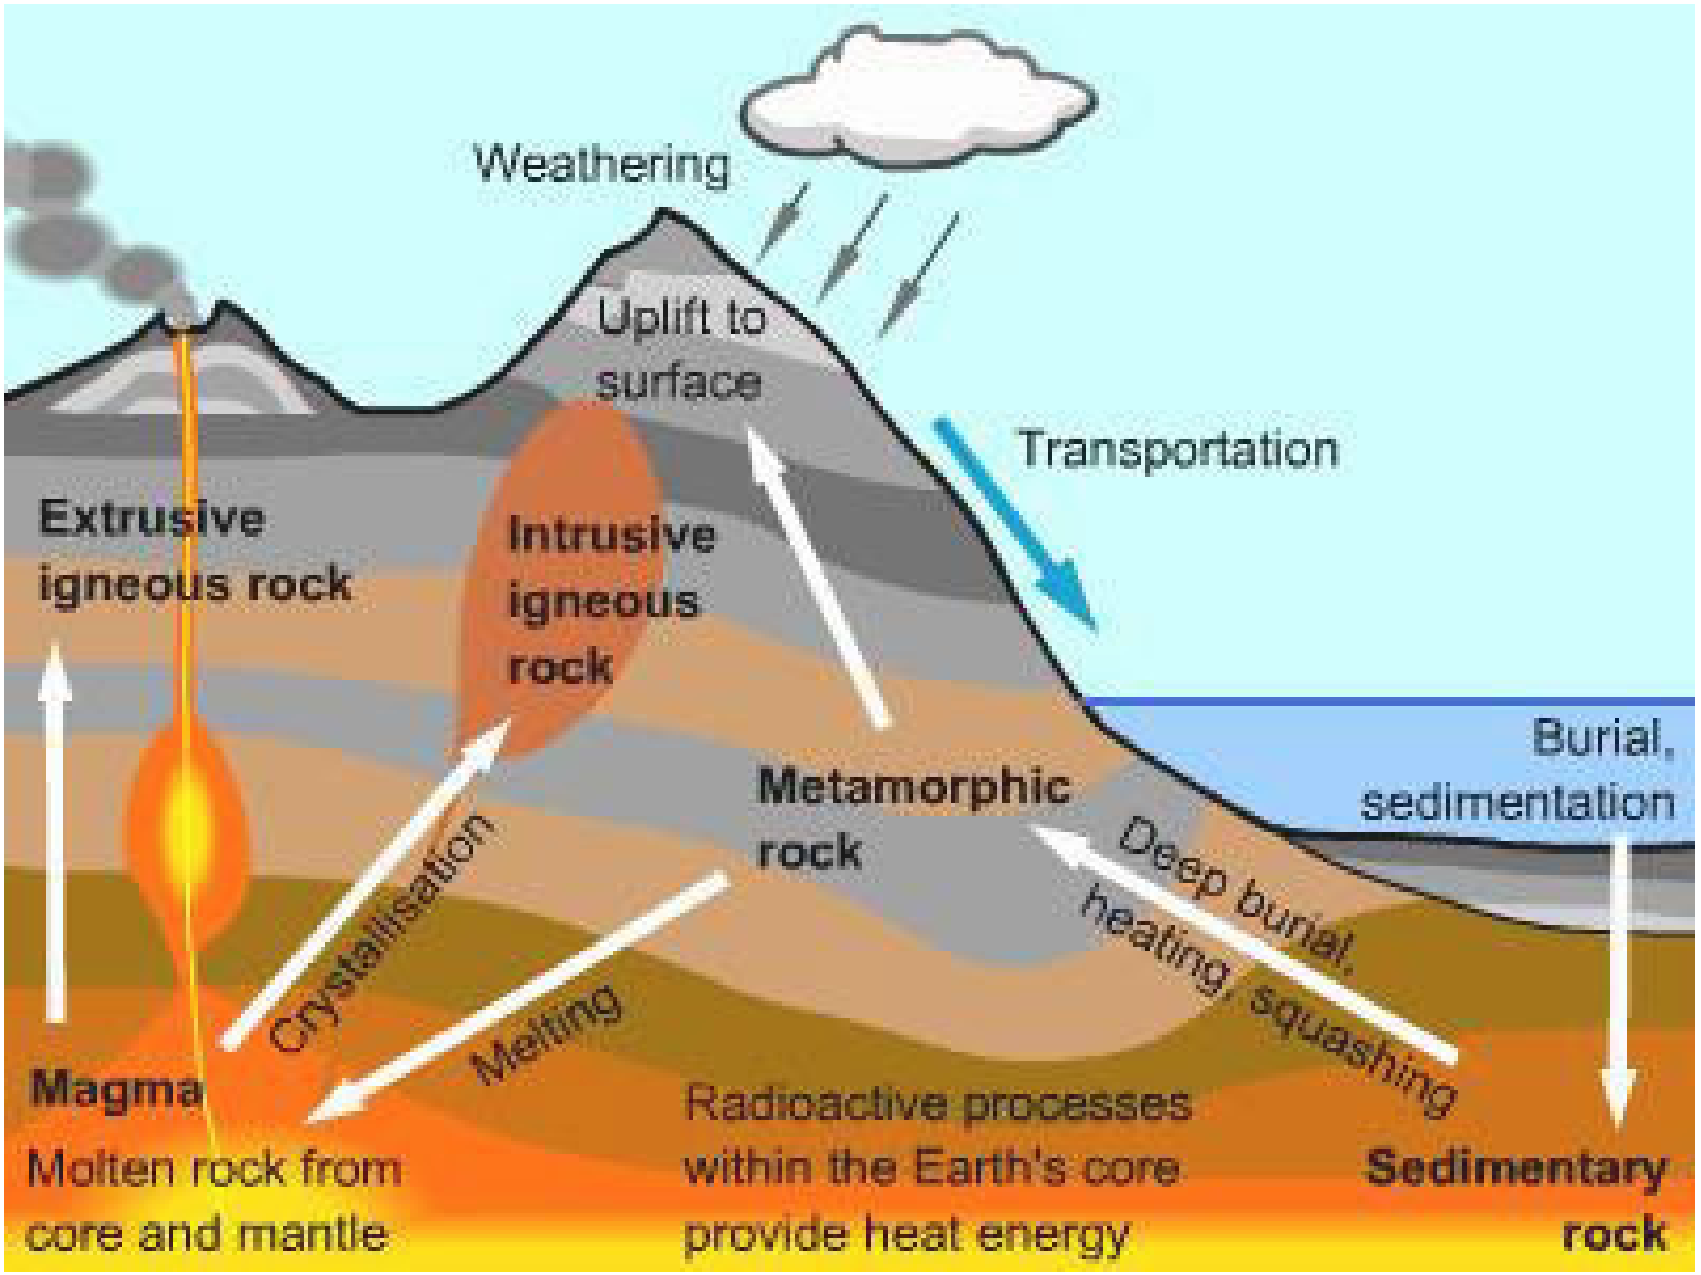
Science & Study of Earth's Physical Matter

Rocks, Minerals, and Fluids

- Composition
- Structure
- Properties
- Processes
- History

Geology 101: The Rock Cycle

- Igneous Rocks
  - Intrusive Rocks Underground Magma
  - Volcanic Rocks Surface Magma
  - Hard with Large or Small Crystals
- Sedimentary Rocks
  - Mechanical Erosion and Deposition
  - Chemical Erosion and/or Deposition
  - Soft, Layers, Fossils
- Metamorphic Rocks
  - Heat and Pressure; No Melting
  - Hard, Banded, Crystals



Weathering

What is an "Ore Deposit"?

Ore Deposits, Park & McDiarmid, 1975

"Ores are rocks & minerals that can be recovered at a profit."

Mineral Deposits Classification

- Metallic Minerals
- Nonmetallic Minerals and Rocks
- Energy Solids and Fluids
- Water

Mineral Deposits Classification (Primary)

- Magmatic Segregation Deposits
  - Ni-Cu-PGE-Chromite
- Metamorphic Deposits
  - Mesothermal Au, Garnet, Marble, Asbestos
- Hydrothermal Deposits

Hydrothermal Deposits

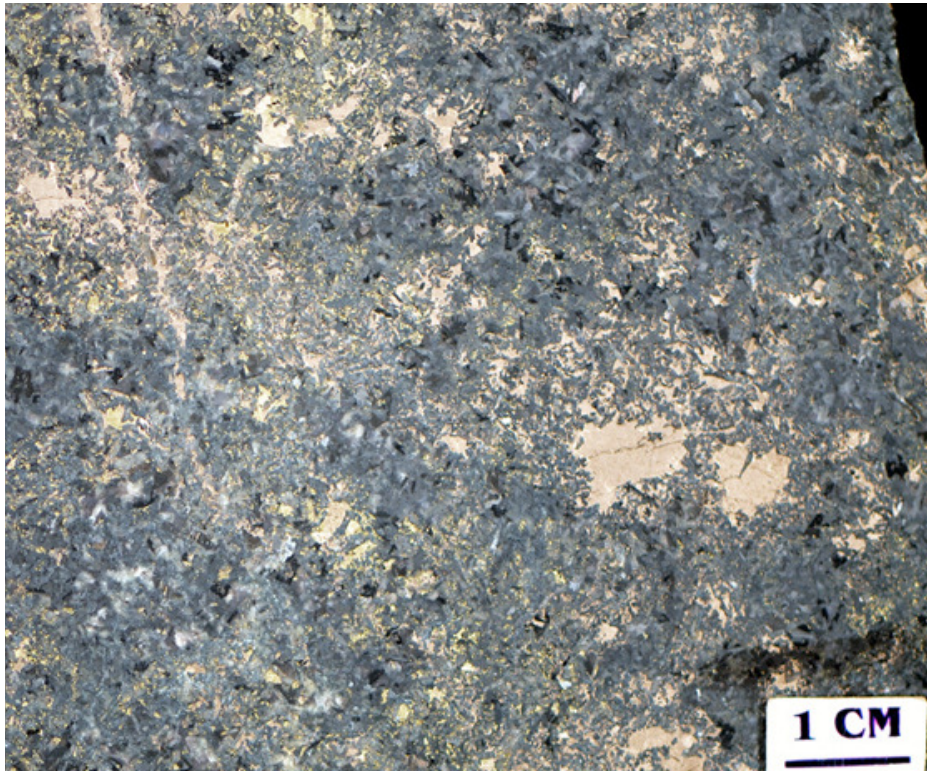
- Porphyry-Skarn: Cu-Mo-Au-Ag-W
- Granite-Pegmatite: Sn, REE, Specialty Metals
- Sedimentary-Hosted Au
- Carbonate Replacement: Pb-Zn-Ag

Mineral Deposits Classification (Primary)

- Sea Floor Deposits
  - Volcanic & Sediment-Hosted Massive Sulfide
- Basinal Brine Deposits
  - Mississippi Valley Pb-Zn-F
- Chemical Sedimentation
  - Evaporites (Salt , Potash, Gypsum); Phosphate
  - Banded Fe Formation; Mn Nodules
  - Limestone, Diatomaceous Earth

Sudbury Ni-Cu-PGE Ontario

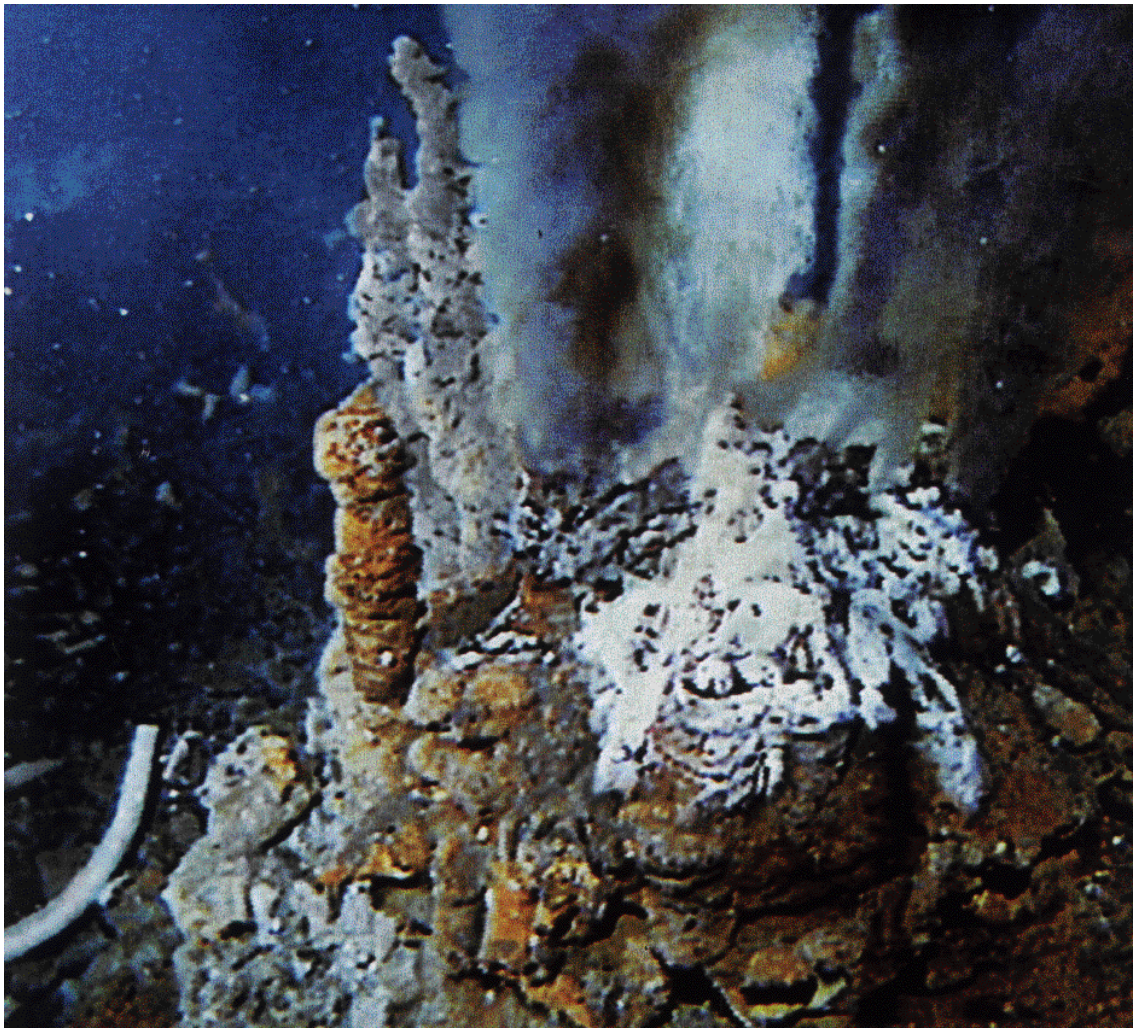
- n



Porphyry Cu-Au-Mo Deposit
Open Pit Mine, North Central Utah

Epithermal Au Deposit, Sonora

Volcanogenic Massive Sulfide



Limestone Cement Plant New Mexico

Controls of Primary Mineral Formation

- Geological Boundaries or Discontinuities
- Magmas
- Chemical and Physical Changes
- Hot Salty Waters (Hydrothermal)
  - Magmatic, Metamorphic, Basinal, Meteoric

Mineral Deposits Classification (Secondary)

- Oxidation-Reduction
  - Sandstone & Unconformity U_3O_8
  - Copperbelt
- Clastic Sedimentation
  - Sand and Gravel
  - Witwatersrand Au
  - Placer Au, Ti, Sn, Zr, REE, Diamonds

Mineral Deposits Classification (Secondary)

- Weathering
  - Laterite Ni; Bauxite;
  - Supergene Cu; HREE Clays
- Biogenic
  - Coal; Oil & Gas; Sulfur; Humate; Guano

Gas Hills, Wyoming
Uranium Roll Front

Tofti Placer, Alaska 2009

Copper Oxide Chile 2006

Sand & Gravel, New Mexico 2003

Economic Geology

- What is "Economic Geology"?
  - Study of Geology Applied to Ore Deposits
- What is an "Ore Deposit"?
  - Rocks and Minerals Recovered *at a Profit*
- Who is an "Economic Geologist"?
  - Science, Communication, Business, Finance

De Re Metallica (1556)
Georgius Agricola

What Does an Economic Geologist Do?

- Field Geology
- Office Geology
- Reports and Presentations
- Budget, Finance, & Business Development

Pre-Season Office Geology

- Plan Exploration Programs
- Compile Data for Field Exploration
- Prepare Maps for Field Exploration
- Budget Exploration Programs
- Negotiate and Sign with Contractors

Field Season Geology

- Mapping and Prospecting
- Rock, Soil, and Stream Sampling
- Drilling Logistics and Management
- Core and Chip Logging
- Manage Field Crews and Contractors

Geological Mapping and Core Logging

Albert's Hump, B.C., Sept

El Vino Fino, Chile July 2007

2006

Prospecting

Temoris, Mexico
January 2007

Poison Canyon, N. M.
April 2008

Claim Staking 1995
San Mateo Mountains, New Mexico

Rock Sampling

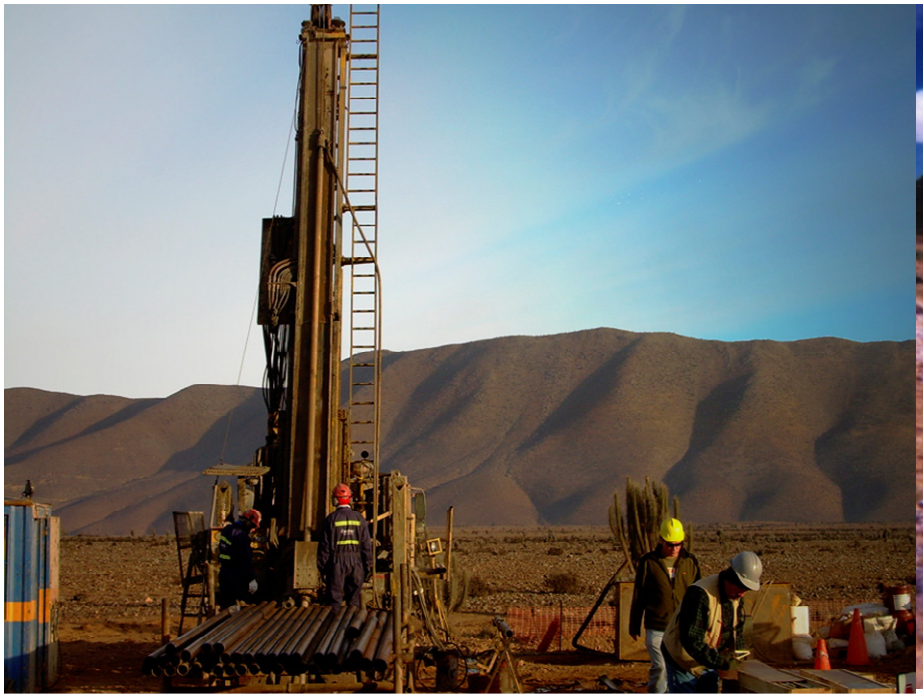
Albert's Hump, B.C.

August--September 2006

Drilling Logistics and Management

Las Posadas, Chile
July 2007

Las Princesas, Peru
August 1998



Post-Season Office Geology

- Compile Maps and Data
- Analyze, Integrate, and Interpret Data
- Write Reports & News Releases
- Presentations: Investors & Financings

Compile Maps and Data
Pecos, New Mexico July 1983

Analyst Tour Northern Chile
January 2006

CIM Standards on Mineral Resources and Mineral Reserves (2000)

Mineral Resource:

- Concentration of Material
- Quantity and Quality
- Reasonable Prospect of Economic Extraction
- Geological Characteristics and Continuity
- Specific Evidence and Knowledge

Mineral Resources

Geological Confidence in Resource Estimate

- Inferred
- Indicated
- Measured

Note: *Confidence level of Inferred Resources are insufficient to assess technically or economically.*

Mineral Reserves

Geological Confidence in Reserve Estimate

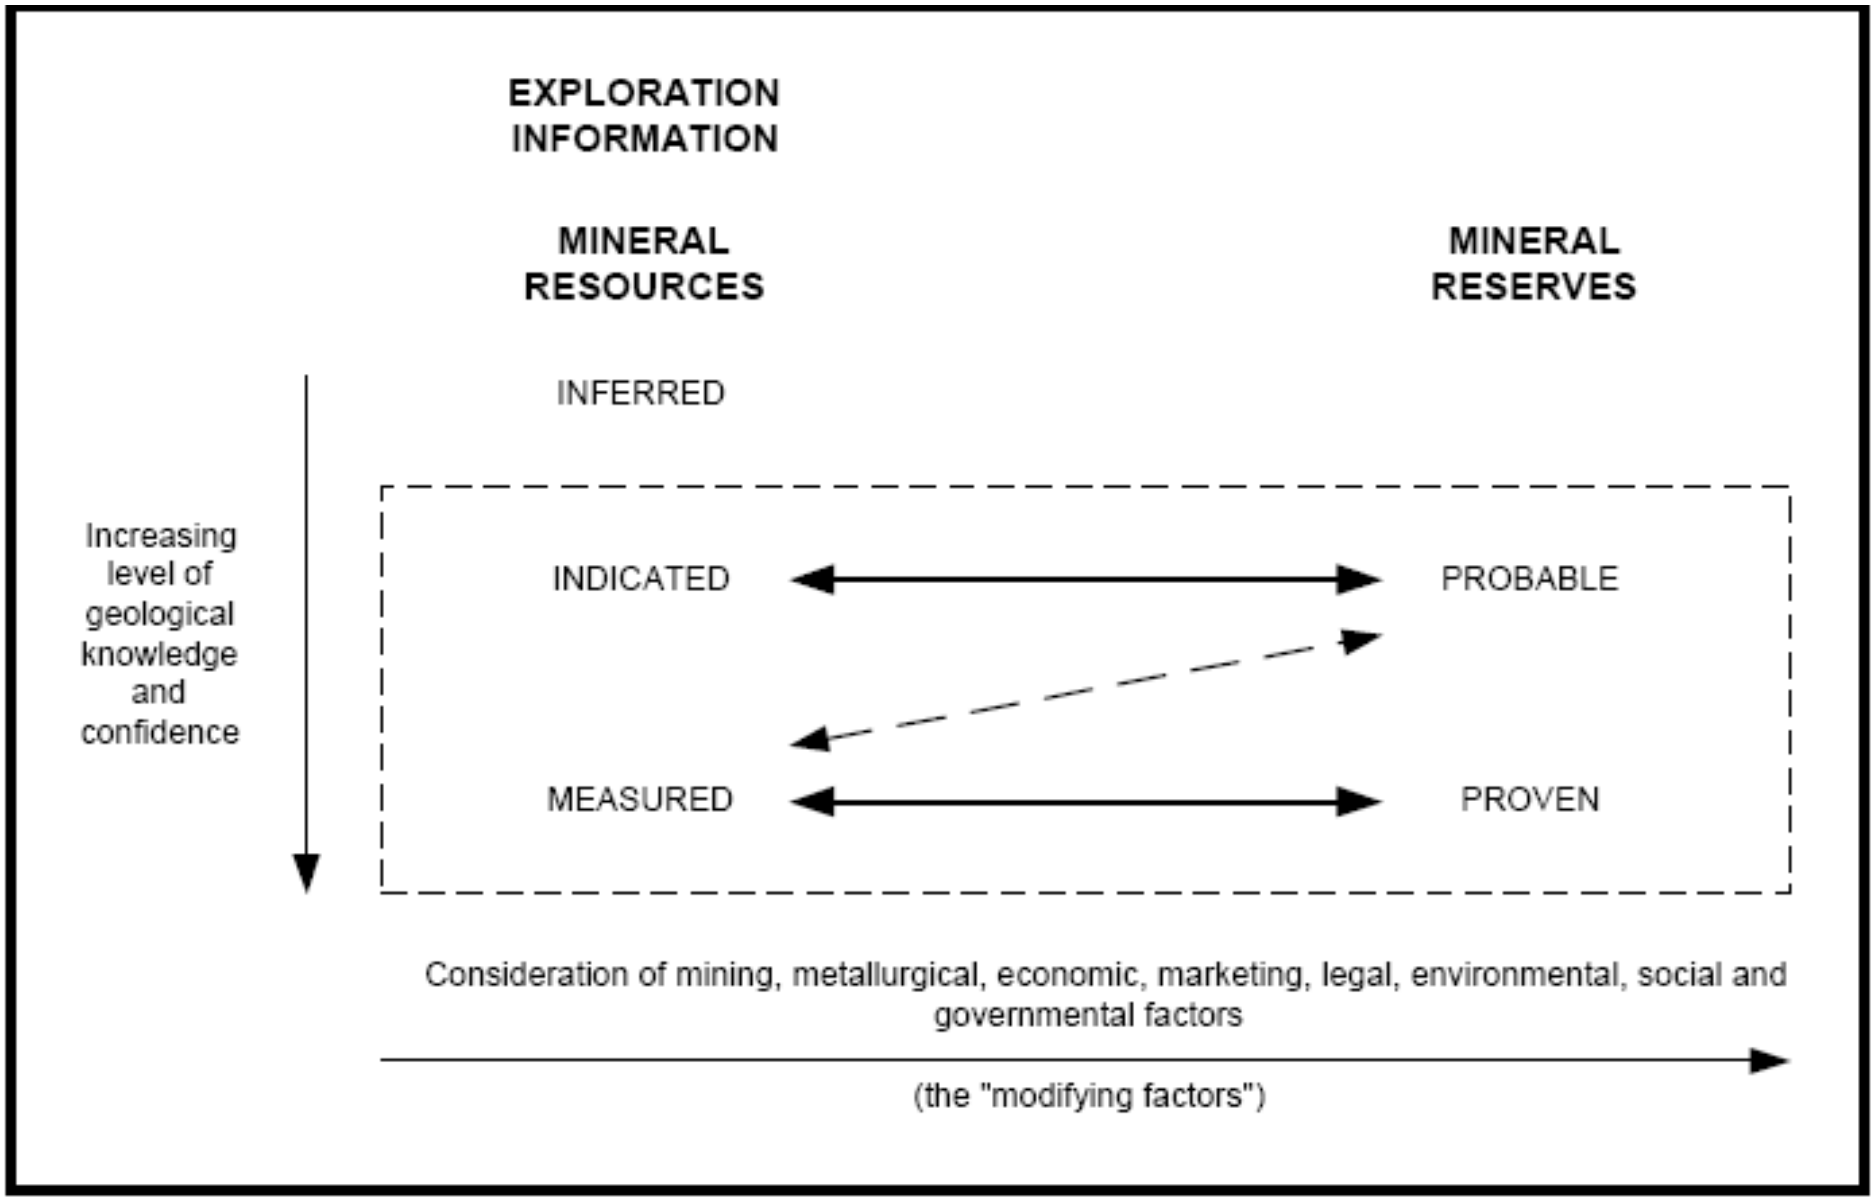
- Probable
- Proven

- Economically Viable Project

- Modifying Factors: Mining, Processing, Metallurgical, Economic, Marketing, Legal, Socio-Economic, Environmental, Government

Mineral Reserves

- Economically Mineable Part of Resources
- Measured and Indicated Resources Only
- Preliminary Feasibility Study
- Economic Extraction at Time of Report
- Includes Dilution and Loss Allowances



EXPLORATION INFORMATION
MINERAL RESOURCES
MINERAL RESERVES
INFERRED
Increasing level of geological knowledge and confidence
INDICATED
PROBABLE
MEASURED
PROVEN
Consideration of mining, metallurgical, economic, marketing, legal, environmental, social and governmental factors
(the "modifying factors")

Mineral Resources vs Mineral Reserves

What is the Difference?

At a Profit.

Every Good Geologist Knows That Grade is King!

Evaluating a Company for Investment

Mineral Resource:

- Mineralized mass of rock
- Highly elevated content
- Particular mineral commodity
- Compared to Background Abundances

- Little or No Economic Input

Mineral Exploration

- Grassroots Reconnaissance
- Prospect Evaluation
- Drill Targeting
- Phase I - II Drilling
- Phase III Drilling, Inferred Resource

Advanced Exploration & Development

- Phase IV-VI Drilling, Metallurgy: Meas/Ind Resource
- Pre-Feasibility Economics: Proven/Probable Reserve
- Feasibility Economics: Proven/Probable Reserve
- Final Permits, Financing, and Development

Mining: A Difficult Business

- 40% of Mines Fail
- 40% of Mines Break-Even
- 20% of Mines Return Windfall Profits
- Juniors are Explorers not Miners

Mining the Stock Market

Mark Twain: Comstock Lode 1865

Virginia City, Nevada

"A mine is a hole in the ground with a liar standing beside it."

A Mine is a Hole in the Ground…

Copper Oxide Chile 2010

Why I Do What I Do…

28 # King Salmon

11 # Lake Trout

Why I Really Do What I Do…

In-Fisherman 2008

Master Angler Award: 5# Brook Trout

But Really Why I Do What I Do . . .

Fraser River, B.C. September 2010

The Real Reason I Do What I Do…

- See the World
- Explore
- Develop
- Create Wealth
- Make the Earth a Better Place to Live
